Websites Fact Sheet

Websites are available as both WordPress and non-WordPress made using Bootstrap and the STR theme. If you do not need to log in and update your own content, choose the non-WordPress option. Non-WordPress websites are lower cost, higher security, and easier to maintain.

Prices for Websites

One page starter websites display basic content provided by you, optional contact form/map and image slider, and a default design with your color scheme.

- Starter website setup, non-WordPress: \$600
- Starter website setup with WordPress: \$900

Each extra page with reasonable amount of content will cost an additional \$100 on average.

- Hosting fee starts at: \$14.95/month
- Domain fee starts at: \$34.95/year
- SSL certificate starts at: \$99.95/year

Prices for Website Development

Custom design, adding or updating content, maintenance of all kinds are billed hourly with a one hour minimum and invoiced monthly. If you need us to do development on a website not made with the STR theme, such as a Wix or GoDaddy Website Builder, the cost is higher.

- Development on STR theme websites: \$35/hour
- Development on WIX, other builders: \$70/hour

Special Note

Prices for website services are set at Salem Computer and are subject to change. Always make sure you have the latest fact sheet. No website is 100% secure. Salem Computer is not responsible for website malware or hacking.
